Profile

Product Designer (UX/UI) focused on end-to-end digital experience design. I align user needs with business goals, bridging both sides to translate complexity into purposeful solutions with a clear value proposition. I am involved across the full product cycle — from discovery and research through design, testing, and iteration.

Experience

UX/UI Designer - Grupo Digital Bank

Nov 2024 - Feb 2026

- Defined end-to-end interaction journeys and flows for fintech web and mobile products, prioritising clarity and efficiency at every user decision point.
- Conducted user research and testing to validate and iterate.
- Designed hi-fi prototypes aligned to business and user needs.
- Created consistent design systems aligned with the client's brand identity.
- Collaborated with cross-functional teams in Agile environments.

UX/UI Designer - Grupo Fesa S.A

Oct 2024 - Dec 2024

- Defined the information architecture of missing modules.
- Designed flows and prototypes applying and scaling the design system.
- Coordinated with stakeholders and development to ensure technical feasibility before handoff.

Designer - Banco de Bogotá

Aug 2023 - Aug 2024

- Redesigned flows to improve efficiency in operational processes.
- Optimised existing interfaces based on usability principles and user feedback.
- Managed communications and redesign of the internal web platform.
